

ADDITIONAL INFORMATION AND INSTRUCTIONS

The Virginia Pesticide Control Act requires the annual registration of each brand or grade of a pesticide before manufacturing, distributing, selling, offering for sale or offering for use. The annual registration fee is \$160.00 per product.

1. **Definitions:**

- a. **Brand** - any word, name, symbol, device, or any combination thereof, which serves to distinguish a pesticide product manufactured, distributed, sold, or offered for sale by one person from that manufactured, distributed, sold, or offered for sale by any other person.
- b. **Grade** - formulation of a pesticide.

2. **Product Registration Requirements:**

- a. **Brands:** Each brand of a pesticide must be registered separately at a fee of \$160.00 per product per year. Likewise, alternate brand names (ABN), or those that have the same formulation or grade, and are manufactured by the same person, the labeling of which contain the same claims and which bear designations identifying the products as the same pesticide, must be registered separately on an annual basis. However, there is no additional fee. For example, Myers Disinfectant Basin, Tub and Tile Cleaner and Myers Disinfectant Bathroom Cleaner are offered for sale. Both products have the same EPA registration number, the same formulation, are manufactured by the same company and make the same claims. In this example, the registrant would register each product separately but pay only \$160.00 total.
- b. **Grades:** Each grade of a pesticide must be registered separately at a fee of \$160.00 per product per year. Thus, if a particular pesticide is available in different formulations, for example, granular and dust, then each formulation must be registered separately at a fee of \$160.00 per product. Grade or formulation would also refer to the fragrance of a product. If a particular pesticide is available in different fragrances, for example, original scent and lemon scent, these are considered different grades (formulations) and must be registered separately at a fee of \$160.00 per product.

[Please Note: There is one exception to the registration requirements for different grades. Pursuant to Section 2 VAC 20-30-10, Virginia Administrative Code, the addition of pigment solely for the color shall not constitute a change in the formulation such as to constitute a new grade requiring registration and a separate fee. As an example, if antifoulant paint were available in red, green, and blue, each color paint product would be registered separately, however, the total fee would be only \$160.00. There would be no additional fee for different pigments.]

3. **Listing Products:** List the U.S. EPA registration number (or 25(b) Exempt, if applicable), the product name (alphabetically), indicate if the product is a restricted-use pesticide or RUP (Yes or No), and the fee (indicate \$160.00 or ABN if applicable). An example is shown below.

<u>EPA REGISTRATION NO.</u>	<u>PRODUCT NAME (as it appears on label)</u>	<u>RUP (Yes or No)</u>	<u>FEE</u>
1. 1383-85	Myers Disinfectant Basin, Tub and Tile Cleaner – Original Scent	No	\$160.00
2. 1383-85	Myers Disinfectant Basin, Tub and Tile Cleaner – Lemon Scent	No	\$160.00
3. 1383-85	Myers Disinfectant Bathroom Cleaner	No	ABN
TOTAL FEES REMITTED			<u>\$320.00</u>

4. **Submission of Application Packet:** Submit one completed copy of this application form. Enclose a label and a Material Safety Data Sheet (MSDS) for each product listed in the application. We encourage registrants to submit all product labels and MSDS in a printable format on compact disc (CD) in jewel box. Please label the CD to include registrant name, year and directory of contents. You may include as many brands or grades as space permits. If additional space is required, please complete an additional application form. Type or print the application clearly in ink.
5. **Certificate for Pesticide Registrations:** A Certificate listing products registered will be mailed to all registrants verifying the processing of their application for new pesticide product registration.
6. **Product Renewals:** All pesticide product registrations expire on December 31 each year. Applications for renewal of currently registered pesticides are mailed annually to registrants.

For assistance in completing this application, please contact Reba Gilliam at 804-786-1025 or reba.gilliam@vdacs.virginia.gov.
